SENIOR SMILES ORAL HEALTH PROGRAM

ABOUT US

Senior smiles is a preventive oral health program closing the gap in provision of oral health care for the ageing population living in residential aged care facilities.

The program places Oral Health Practitioners in aged care facilities to conduct oral health risk assessments, formulate oral health care plans and provide appropriate referrals for timely dental treatment to both the public and private sectors. The Oral Health Practitioner will also provide oral health instruction and education to residents, carers and staff.

Senior Smiles is the recognised Oral Health Therapy provider and practitioner recruitment service for Residential Aged Care Facilities.

Oral Health Practitioner Training

Train Oral Health Practitioners under the Senior Smiles model of care.

Orientation and Resource Pack

Access to contracts, resources and educational aids to support the role of Aged Care Oral Health Practitioner. Provides training and resources for Residential Aged Care Staff.

Residential Aged Care Facility (RACF) employment agency

Access to aged care organisations to implement Senior Smiles program.
